AUTHORIZATION OF FACSIMILE AND DIGITAL SIGNATURES

POLICY:
The Board of Supervisors recognizes that, due to available technology, communications, agreements and other documents are frequently composed and executed within an electronic system. In order to utilize the available technologies to improve County efficiencies the Board of Supervisors hereby establishes the following procedures for the use of digital signatures:

I. USE OF FACSIMILE SIGNATURE
The use of a facsimile signature of the Chairperson of the Board is authorized for use on all copies of resolutions, orders, ordinances, letters, contracts, minutes, and records of this Board, upon which the chairperson has been authorized, empowered or instructed to sign by order or resolution of the Board, or by ordinance or statute. The chairperson may delegate the affixing of his/her facsimile signature or digital signature to the Clerk of the Board of Supervisors or his/her duly qualified deputies, by executing a document approved as to form by the County Counsel reciting the delegation and setting forth what shall be considered his/her signature.

II. DIGITAL OR ELECTRONIC SIGNATURES

1. DEFINITIONS
   A. **Electronic signature** means an electronic sound, symbol, or process attached to or logically associated with an electronic record and executed or adopted by a person with the intent to sign the electronic record. The Uniform Electronic Transaction Act (UETA) authorizes use of an electronic signature for transactions and contracts among parties in California, including a government agency. (Cal. Civ. Code §1633.1-1633.17)

   B. **Digital signature** means an electronic identifier, created by computer, intended by the party using it to have the same force and effect as the use of a manual signature. For purposes of this section, a digital signature is a type of "electronic signature" as defined in subdivision (i) of Section 1633.2 of the Civil Code.

2. DIGITAL SIGNATURES
   The Uniform Electronic Transaction Act (UETA) authorizes use of an electronic signature for transactions and contracts among parties in California, including a government agency, when both parties agree to its use. (Cal. Civ. Code Section 1633.1 – 1633.17). The electronic signature must be supported by evidence that the signature is the act of the intended person. An agreement executed with an electronic signature has the same legal enforceability as a wet signature, subject to documents that are exempt.

   A digital signature is a type of electronic signature with strict security requirements that may be used to execute certain written communications and agreements with
the County if it satisfies the requirements found in Cal. Gov. Code§ 16.5, et. seq. and Title 2, division 7 Chapter 10 of the California Code of Regulations. (2 CCR §22000-22005)

The signatures must be:
1. Unique to the person using it;
2. Capable of verification;
3. Under the sole control of the person using it; and
4. Must be linked to the data in such a way that if the data is changed the signature will be invalidated.

III. PROCEDURES FOR USE OF ELECTRONIC OR DIGITAL SIGNATURES

A. System Approval:

B. The system used for the creation of the electronic signature must be approved by County of Riverside Technology Standards Oversight Committee (TSOC) and in accordance with state law.
   - Express Agreement: When the parties to an agreement desire to use electronic signatures for executing the agreement, a term shall be included in the agreement to memorialize the use of electronic signatures for the agreement. Absent such terms in an agreement, the agreement must have a wet signature.

C. Submission for Approval and Execution: Once the electronic agreement is complete and has been digitally signed by the duly authorized representative of the other parties, it may be submitted for execution by the Board of Supervisors or the individual who has the delegated authority to bind the County for that contract type.

D. Retention: The executed electronic agreement must be maintained pursuant to the Board Policy A-43, or statute within a County approved secure retention process. The secure method of retention of the final agreement must lock the document, preventing any changes to the final executed agreement.

IV. CHANGE OR ERROR IN ELECTRONIC RECORD

If a change is needed or an error is being corrected within the electronic record of the fully executed agreement, those actions will comply with the requirements of Cal. Civ.Code § 1633.10 or will be addressed through a contract amendment.

V. EXEMPTIONS

Electronic signatures may not be used in all situations. Documents that may not be completed using electronic signature include, but are not limited to:
1. Laws governing the creation and execution of wills, codicils, or testamentary trusts;
2. Certain transactions governed by the Uniform Commercial Code;
